

Help Guide for TechStuff Website

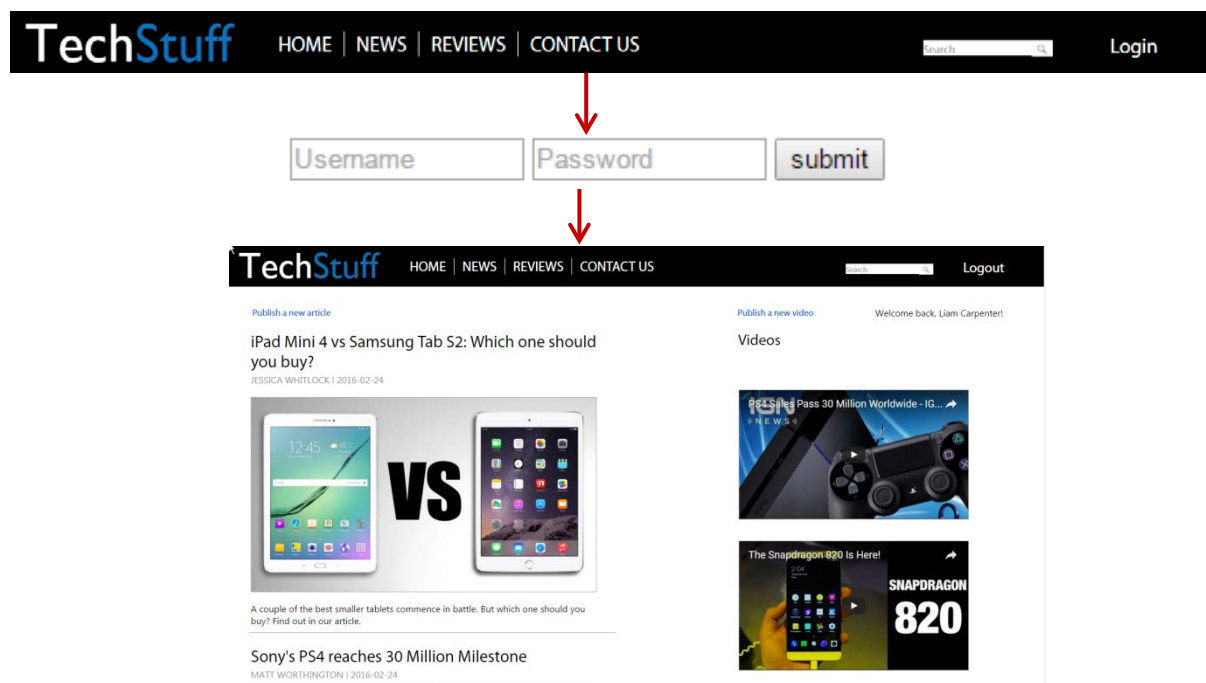

Webpage Links

Upon visiting the website, use the nav bar located on the top of the webpage to direct redirect to the home, news, review or contact us page.

Login

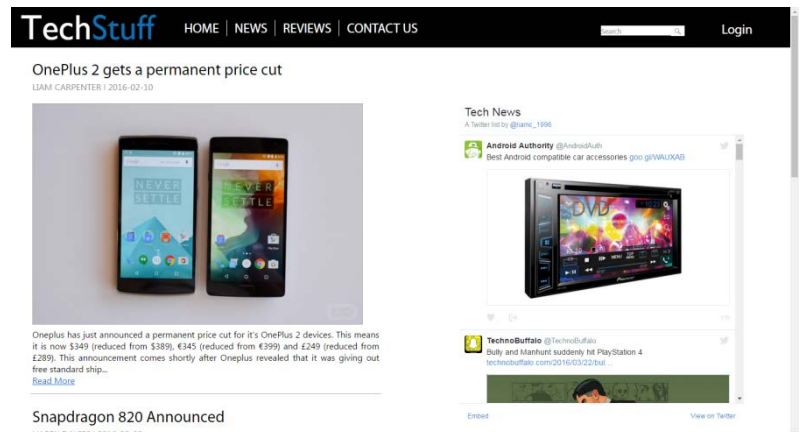

On any of the webpages, heads to the top of the webpage where you will find the login link within the nav bar. Once clicked, you should be redirected to a login screen where you can enter your login credentials. Once entered, you should then be redirected back to the home page, where you will now have the ability to publish new articles and videos as well.

Using Hyperlinks

On the home page there is a hyperlink. Once clicked, this will redirect you to the news webpage. On both the news and reviews webpage, there are hyperlinks labelled 'read more'. Opening these will open up a new tab in your web browser and display the full article. Lastly there is a hyperlink for techstuff's email address. Clicking on this will open your preferred email application and a new composed email addressed to techstuff's email address.

Using the twitter feed

On the news and reviews webpages, you are able to like tweets and also share the story to your favourite social media site such as Facebook, Twitter and also Tumblr.

Poll

On the home page, there is a poll you can interact with at the bottom of the page. Scroll down to this and from here you can select one of the options within the drop down box. If your answer is other, type out your choice within the provided text box and then click submit. The page will then be refreshed.

Which Mobile OS do you prefer?
